

Let's weave such a cute spider for Halloween.

Materials:

5 or 3 mm cord
wooden ring
2 wooden balls

Cord cutting:

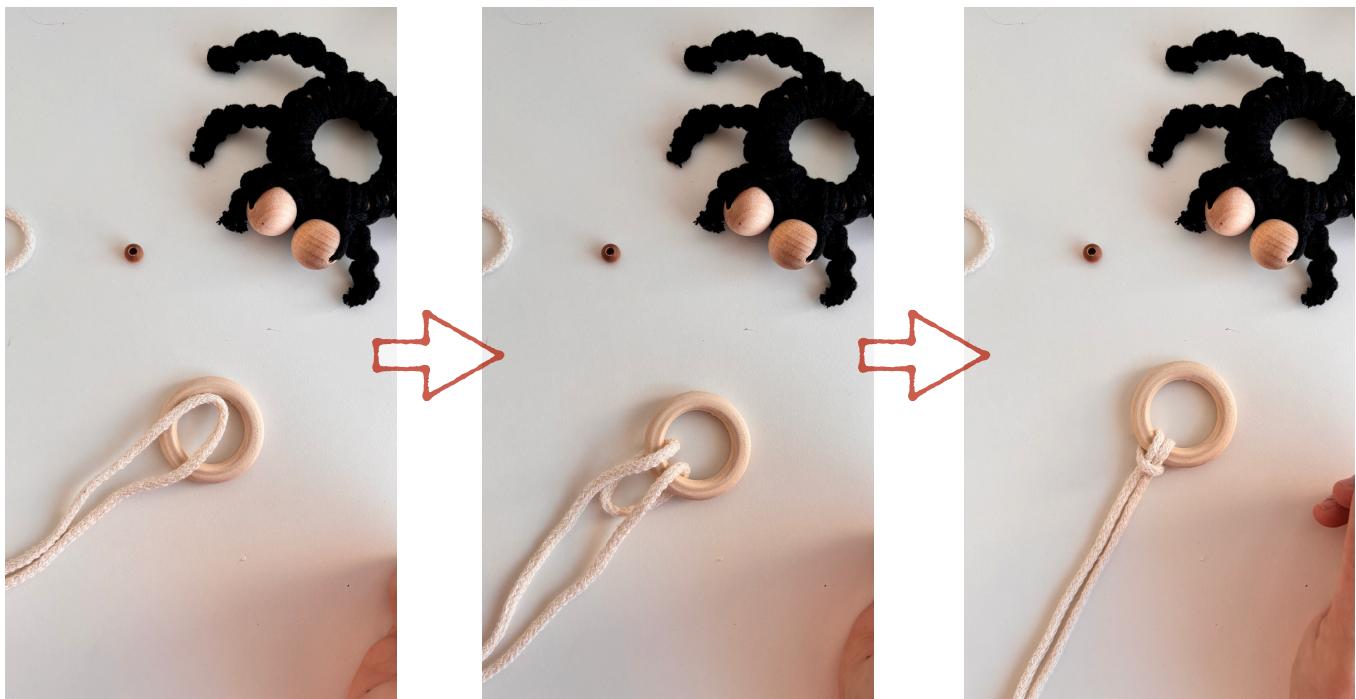

6 cords of 30 cm each
1 cord -70cm
1 cord 25cm

Important: The cord should be cut with a reserve, use quality natural cord.

All right, we're gonna start creating! Good luck!

Step 1

Tie the cords on the ring

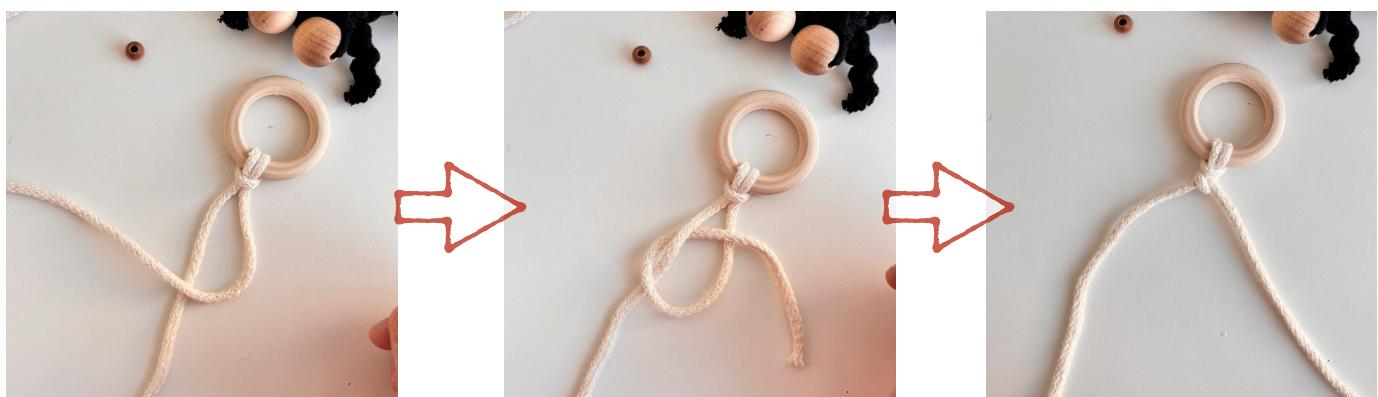

put the cord on top of
the ring

loop the cord around
the ring

Insert the two ends
of the cord into the
loop and tighten.

Step 2

Weave the legs of a spider

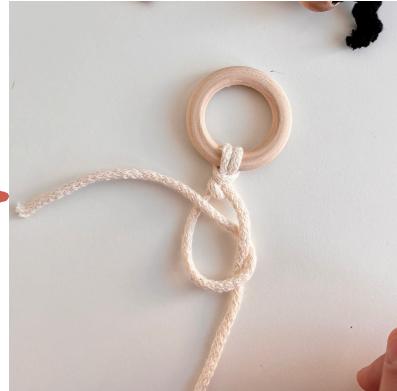

take the right cord
and put it on top of
the left cord.

round the left cord

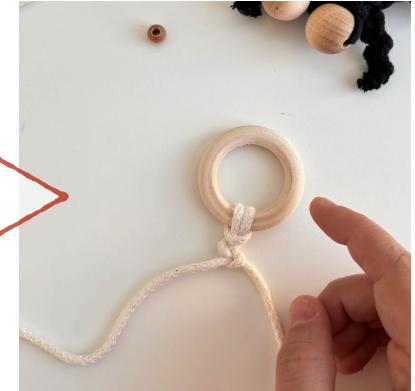

tighten the knot

take the left cord and put it on top of the right cord.

round the left cord

tighten the knot

Step 3

Weave 6 spider legs repeating step 2

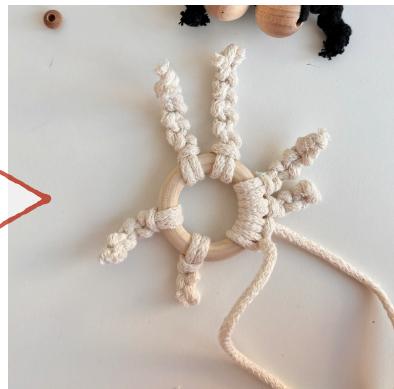

Weave 3 pairs of legs: short medium and long.

Step 4

Weave spider body

Between the two front legs (the smallest pair), attach the cord as shown in the pictures.

take the right cord,
pass it under the ring,
bring it to the top of
the ring and pass it
through the loop.

take the right cord,
pass it over the ring,
bring it to the bottom
of the ring and thread
it through the loop.

tie the knot carefully

Step 5

Braid the ring,
repeat step 4.
Control the same
distance between the
paws

Step 6

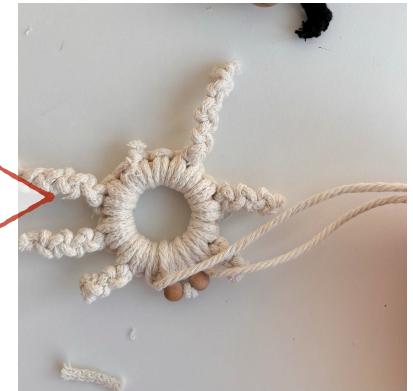

Creating the spider's eyes

take a cord 25 cm, thread a ball one, tie a knot and on the other side of the second ball.

tie a cord with balls between two pairs of short legs: Take the right cord, pass it through the ring from top to bottom and insert the cord into

repeat the same steps with the left cord, tie the two cords into a knot on the back side and cut the ends.

Step 7

Be sure to secure all ends of the cord with glue

Congratulations! You have made the stylish spider!
